

NATIONAL BOARD

for Professional Teaching Standards[®]

The National Board announces the public review period for revised *Career and Technical Education Standards*

Have your say: <https://www.surveymonkey.com/s/CTEpubcom>

Log on anytime from March 16 – April 13, 2014

What are National Board Standards?

National Board Standards are created for teachers, by teachers and define what accomplished teachers must know and be able to do. Based on the National Board's "Five Core Propositions," standards must:

- Identify specific knowledge, skills and attitudes that support accomplished practice, while emphasizing the holistic nature of teaching;
- Illustrate how a teacher's professional judgment is reflected in action; and,
- Describe how the standards come to life in different settings.

National Board Standards are periodically revised to reflect advances in the field, research and best practice. This is the first time *Career and Technical Education Standards* are being revised. Once approved, they will serve as the foundation for National Board Certification in CTE.
