

"This course has really helped me and my school to become more data literate. We are learning how to have a culture around data that is collaborative, safe and transparent."

- Pamela Harman  
2008 Alabama  
State Teacher of the Year

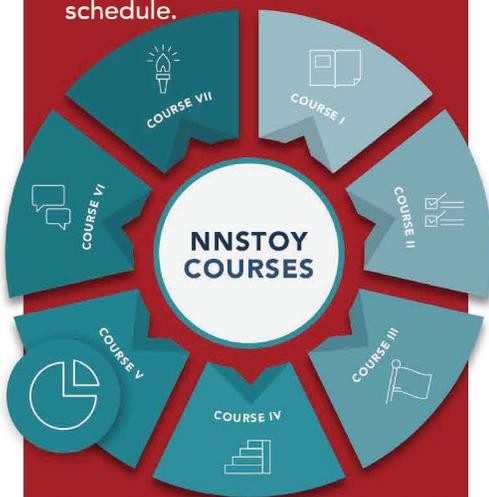

## Course V: Building a Collaborative Data Culture

Our Teacher Leadership Professional Learning Courses effectively build a teacher's capacity to lead and improve professional practice. NNSTOY is an innovative and trusted source of teacher leadership that improves teaching and learning. Courses are available for every educator level and can be on a flexible schedule.

Educators are discovering that using data effectively can dramatically improve student learning. Data systems can help educators design learning opportunities and classroom strategies to support students' growth. Schools that build a collaborative culture around the value of data and data transparency benefit from a collective vision of what can be accomplished and how data can support their work.

This course focuses on how to develop an inquiry mindset to solve persistent problems of practice. Participants will make a plan to lead colleagues in a shared understanding of how to use data to improve results with students.

This course will enhance your ability to:

- Build the capacity of colleagues to use assessment tools aligned to state standards to improve instructional practice
- Understand data and prioritize collection, analysis and action to meet school improvement goals
- Synthesize and interpret data to produce a focused data story that helps your team make good decisions
- Collaborate to improve the quality and interpretation of data to foster learning
- Create a climate of trust and reflection to facilitate challenging conversations about data that lead to solutions

You will leave with:

- A strong understanding of what it means to be data literate
- Knowledge of how to use multiple forms of data to understand your school or district and make informed decisions
- A path to earning digital credentials in teacher leadership
- An action plan to promote change in your school or district
- A virtual follow up session to support your work on your plan

**I: ADULT LEARNING & LEADERSHIP**

**II: BRIDGING RESEARCH & PRACTICE**

**III: LEADING & PROFESSIONAL LEARNING**

**IV: HELPING COLLEAGUES IMPROVE INSTRUCTION**

**V: BUILDING A COLLABORATIVE DATA CULTURE**
